

SEPTEMBER IS NATIONAL PREPAREDNESS MONTH

Plan how to stay safe by learning what protective measures to take before, during and after an emergency. Prepare, plan and stay informed for emergencies. Build a kit for disasters and find opportunities to support community preparedness.

Register your phones for: EMERGENCY NOTIFICATION

The El Paso-Teller County Emergency Notification System is used to alert you of emergency situations that are a threat to life or property, or situations that are deemed dangerous by public safety officials. This may include, but is certainly not limited to, man-made disasters, hazardous materials incidents, missing persons, crime, or neighborhood/business evacuation notifications.

You will receive time-sensitive messages wherever you specify, such as your home, mobile or business phones, email address, text messages and more.

It is important to note that during an emergency you should use as many forms of communication as possible to stay informed. Stay tuned to news broadcasts, radio stations, social media websites, weather radios, etc. Do not put your safety at risk waiting for a phone call/notification to be told what to do. If at any time you feel that you are in danger you should take whatever action you feel is necessary to get yourself to safety.

It is important to register as many points of contact as possible. Landline, cell phone, SMS text message, email, etc. DO NOT assume that your contact information is automatically contained in the Emergency Notification System Database.

For problems registering please email: ensadmin@elpasoteller911.org

** It is recommended that you register as an individual rather than as a household as notifications will stop once a user confirms receipt of the message.*
